SUMMARY

B.Tech student in Artificial Intelligence & Data Science with **750+ DSA problems solved in C++** and hands-on software development experience through two internships. Experienced in building full-stack applications using backend APIs, databases, and modern web technologies.

EDUCATION

B.Tech in Artificial Intelligence & Data Science

Jaipur Engineering College and Research Centre (JECRC) | CGPA: 7.98

2023 – 2027

Jaipur, Rajasthan

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, System Design Basics, Complexity Analysis

Backend: Node.js, Express.js, FastAPI, Flask, RESTful APIs, WebSockets

Databases: PostgreSQL, MongoDB, MySQL

Cloud & DevOps: AWS EC2, AWS S3, Docker, Git, GitHub, CI/CD

Frontend: React.js, HTML5, CSS3, Tailwind CSS

EXPERIENCE

AI Intern / Project Trainee

IBM CSRBOX

Oct 2025 – Nov 2025

Remote

- Engineered an **AI-powered banking assistant** using **IBM watsonx** to automate loan eligibility assessment, application guidance, and query resolution through natural-language workflows.
- Implemented **prompt engineering and knowledge-based retrieval pipelines** to generate accurate, contextual responses for loan eligibility, required documents, and banking procedures.

Frontend Development Intern

GoGetWell.ai

Jul 2025 – Aug 2025

Remote

- Created **12+** reusable, responsive React.js/TypeScript UI components adopted across multiple product modules, reducing duplicate code and future dev time.
- Integrated REST APIs and configured **Zustand** for global state management, cutting redundant re-renders by **30%** and improving perceived load performance.

PROJECTS

Code4Care – AI Hospital Surveillance | Live | Python, FastAPI, React, TypeScript, MongoDB

Mar – Apr 2026

- Designed a real-time hospital infection surveillance platform with an interactive **3D digital-twin dashboard** using React Three Fiber, enabling ward-level monitoring of patients, lab results, infection risks, and alerts.
- Developed an **AI anomaly-detection pipeline** using Isolation Forest and heuristic risk scoring across 8 clinical features to identify potential infection clusters and classify wards into normal, warning, and critical states.

Nyay-Darpan – Govt. Land Rights Portal | Live | React.js, Vite, MUI, Leaflet, Three.js

Aug – Sep 2025

- Architected a **Forest Rights Act (FRA) WebGIS portal** for end-to-end claim management, including claim submission, multi-stage verification, document processing, and digital e-Patta generation.
- Built an interactive **geospatial atlas** with cadastral, satellite, and topographical maps using Leaflet, GeoJSON-based village visualization, and a **3D plot/terrain viewer** using Three.js.

HeartSync – Memory-Persistent AI Chat | GitHub | React.js, Node.js, Express.js, MongoDB

Apr – Jul 2025

- Established a full-stack AI chat application with persistent contextual memory, designing a MongoDB schema optimized for chat-history retrieval and tested with **1,000+ stored messages per user**.
- Delivered REST API routes for chat history, memory storage, and session management, complete with full documentation.

ACHIEVEMENTS

- Solved **450+ problems on LeetCode** and **300+ on GeeksforGeeks** using C++; regularly participate in coding contests.
- Secured **Top 5** at Smart India Hackathon Inter-College Competition (out of **250+** teams) for a full-stack web solution.
- Led **SCREENFLEX**, a departmental technical event on web development, coordinating **40+** teams.
- Core Tech Mentor, Dept. of AI & DS** – Mentored **50+ students** in Python and OOP fundamentals.

CERTIFICATIONS & EXTRACURRICULAR

Certifications: Software Engineering Fundamentals – Software Development and Testing, Infosys (Nov 2024) | The Java Language – LearnQuest, Coursera (Apr 2025) | Python Essentials 1 – Cisco Networking Academy (May 2025) | From Learner to Builder: AI Agent Architect – IBM SkillsBuild (Aug 2025)

Extracurricular: Treasurer & Writer, Atrangi Club – managed finances and creative writing for cultural events.
